

To ban everybody below the age of eighteen..? Or age restrict the AV channels...

Would this be possible? I cannot tell whether I am just super high, right now. Or whether this would be a practical and elegant solution to the **SERIOUS ABUNDANCE OF JITTERY MINDLESS AND INCREDIBLY RUDE OR JUST PLAIN INSULTING TYPES**. It is a serious issue which plagues many of this platform's channels... In the text channels it is okay, perhaps they should be - then it comes to mind that each individual develops at a different pace - age restricted to the AV channels... But, they pollute the AV channels insulting **EVERYBODY**, calling them "niggers" and about "how ugly they are" camera being turned on or off...

I mean-  
Have you seen it?

This would solve certain other issues, although I am unsure how such a policy may be enforced...

I wish you a good day, citizen.

(The link which i have provided is just by random, I have not got a textual representation of this...)
